

ME MY

GIRLFRIEND

AND HER

MEMORIES

Memories.

Memories are one of the most important things one can have as a human. It literally shapes your life from how you think to how you act. We have good memories like when you won the lacrosse championship and the after party after that is one of the best feelings you probably have at that moment in time. Yes, you can take a picture to remember it later, but that moment is so significant in your life that you're probably going to remember it for years to come because of the joy and dopamine it gave you. Then there are not so good memories bad ones bad ones that bad ones bad ones bad ones that ruin your day bad ones that make you feel like the world is against you bad ones.

I have a girlfriend and she is one of no scratch that, is the most amazing, beautiful strongest and bravest woman I know. I'm not just saying that because all boyfriends always say that about their girlfriends, but my girlfriend is especially brave and strong. The things my girlfriend has gone through, I don't know if I could ever go through that and still smile like she does.

My first meeting with my girlfriend was not some cliché like bumping into each other while she was holding bread while running late or her been a damsel in distress and --me saving her. Instead, it was plain and simple, we met on a dating app and hit it off. Our first date was nothing special, just a coffee date but... BUT that was the day that I knew I had to make her my wife as she was the most amazing person I have..... I have... I- I ever met. For- for a did I just forget.... my girlfriend Girlfriend I..... Have a girlfriend?

Mehm! Mmmmmm. Oh, sorry I was rumberling. Anyway, now you understand why you're here. Everybody's telling me "You don't have a girlfriend" but I do have a girlfriend I DO. I DO. I DO. And you I going to be proof that I am not crazy or insane or schizophrenic like the doctors want to believe. I actually do have a girlfriend, I do have a life after the accident, I am a sane person I-I am not insane. not insane I'm just normal I mean person and I had a girlfriend I had her I had – WHY DO'T ANYONE BELIEVE ME..... that I had - I'm not crazy I'm not crazy YOU think I'm crazy of course you don't I'm NOT crazy I have never been crazy..... I'm not schizophrenic there's no history in my family that would tell you that I'm schizophrenic. Doesn't it run in the family or something well nobody my family has it so that means that I'm not schizophrenic I'm just normal average person don't you understand me? PLEASE PLEASE..... please.
